NOTES: -

I. Marble & Granite

Marble and granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble or granite hence cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite being a much harder material than marble cannot be re-polished after installation. Hence, some differences may be felt at the joints. Subject to Clause 14.3, the tonality and pattern of the marble or granite selected and installed shall be subject to availability.

II. Timber

Timber strips are natural materials containing veins and tonal differences. Thus it is not possible to achieve total consistency of colour and grain in its selection and installation.

III. Wardrobe, Kitchen Cabinets, Fan Coil Units, Electrical Points, Door Swing Positions and Plaster Ceiling Boards
Layout/location of wardrobes, kitchen cabinets, fan coil units, electrical points, door swing positions and plaster ceiling boards are subject to Architect's sole discretion and final decision.

IV. Air-Conditioning

Air-conditioning system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters and clearing the condensate pipes to ensure good working condition of the system.

V. Cable Television and/or Internet Access

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the StarHub CableVision Ltd (WCV) and/or Internet Service Providers (ISP) or any other relevant party or any other relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their perspective subscription channels and/or Internet access.

VI. Mechanical Ventilation Exhaust Fan System

The mechanical ventilation exhaust fan system (if any) has to be maintained and cleaned on a regular basis by the Purchaser to ensure good working condition of the system

VII. Warranties

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor shall assign to the Purchaser such warranties at the time when possession of the Unit is delivered to the Purchaser.

VIII. Materials, Fittings, Equipment, Finishes, Installations and Appliances

Subject to clause 14.3, the brand, colour and model of all materials, fittings, equipment, finishes, installations and appliances supplied shall be provided subject to Architect's selection, market availability and the sole discretion of the Vendor.

While all reasonable care has been taken in preparing this brochure, the developer and its agents cannot be held responsible for any inaccuracies.
