THE VALUE OF A SEASIDE HOME

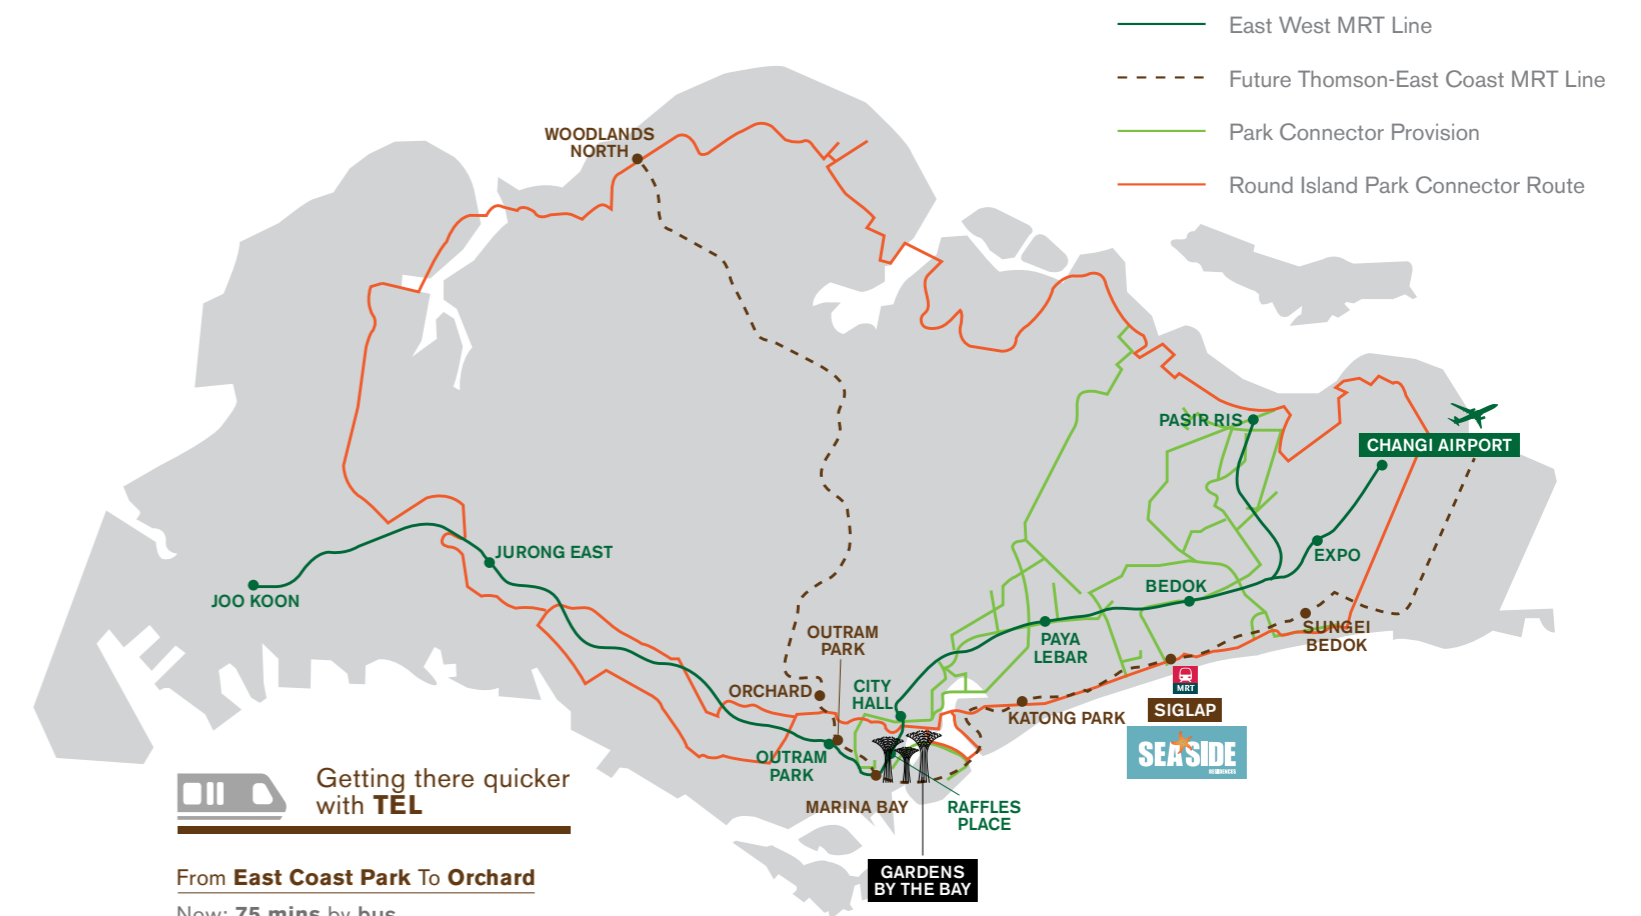

Located at Siglap Link and beside the ever-popular East Coast Park, Seaside Residences is the only new development in Singapore that can boast a rare combination of a desirable seaside address, exceptional convenience and connectivity. Living here means stunning unblocked views of the sea, and easy access to over 15km of scenic coastline. As there is limited sea-fronting land available for new projects in District 15, this is in fact the first development to be built at such a highly-prized seaside location in 15 years. The views from your seaside home will truly be exclusive and highly sought after.

For families, endless hours of leisure and fun can be enjoyed at the East Coast Park. Seaside Residences is also just next to the prestigious Victoria School, and close to many good schools and enrichment institutions. Close by, both the Katong and Marine Parade neighbourhoods provide numerous opportunities for shopping, dining and entertainment.

Many new megastructures are also being developed in the East, building on the potential in the area. The completion of Terminal 4 and the new Terminal 5 will bring approximately 100 million passengers per year to Changi Airport by 2030. Jewel Changi Airport, opening in 2019, is set to host numerous world-class leisure, shopping and dining attractions. With the revamping of the nearby Viva Business Park, residents in the area can access a wide variety of retail and lifestyle amenities. Beyond that, multinational corporations such as IBM, Standard Chartered Bank and JP Morgan are located at Changi Business Park, and are just a few of the many large companies that call the East home.

Having the airport, the beach and downtown Singapore all easily within reach, it's easy to see what makes Seaside Residences an exceptional home for both local and overseas buyers and investors. Its proximity to numerous business parks also makes it the ideal choice for expatriates seeking a place to live, work and play.

With its exceptional location, views and connectivity, there's no better time to make the seaside your home.

There are also upcoming plans for it to be linked to, and stopping at the future Terminal 5 before ending at the existing Changi Airport MRT station. This makes overseas travel and access to and from home that much more convenient and accessible.

SEASIDE FUN FOR ALL THE FAMILY

Marine Cove holds a fond spot in the memories of many Singaporeans. Revamped in 2016, it is now home to a giant outdoor playground set over a sprawling 3500 sqm and family friendly dining outlets, including food outlets that offer healthier dining options including salads, juices and freshly made sandwiches.

When all you want to do is kick back and relax, a home at Seaside Residences lets you enjoy stretches of sandy beaches as your own private hideaway. Spend time with your loved ones, accompanied by nothing but the sun, the sea and your footprints on the sand.

Those with little ones will also find much to love at the East Coast Park. With many lifestyle destinations hosting restaurants, playgrounds, stores and more, you'll find numerous spots to enjoy some quality time together as a family. Because here, we take leisure seriously.

Discover the perfect hangout spot at the hip **Parkland Green**, where quirky cafes, microbreweries, and sports bars can be found by the beachside. It's also home to Tag Team @ East Coast Park. You'll find Singapore's largest indoor laser tag arena here, along with virtual reality experiences that are out of this world.

Grab your bikes and head over to the **Road Safety Community Park** with your kids. Paths, service and transit stations have all been built so that children can experience traffic from a driver's point of view. Here, learning about road traffic safety is both fun and educational at the same time.

Extending 250 metres out to sea, **Bedok Jetty** is Singapore's longest fishing jetty and frequented by passionate anglers, photographers, and explorers who enjoy spending evenings and weekends taking in the balmy sea breeze and views from this unique vantage point.
