MILTONIA

**Ingeniously created.  
Intentionally lavished.**

Standing tall amongst the tranquil haven of tropical greeneries and glistening waters, Skies is the symbol of unsurpassed opulent. Experience a unique home that offers a healthier lifestyle in exquisite balance for the astute individual to indulge and lavish in.

**Come home to your private sunshine.**

An arresting visage that shines from inside out, this landmark of luxury illuminates every life within. Welcome to a new abode that nourishes your mind and soul in every single way, in every gratifying moment.

Where gratification is measured in moments.

Orchid Country Club - 2mins \* Seletar Country Club - 6mins \* Lower Seletar Reservoir - 5mins  
 Northpoint Shopping Centre - 6mins \* Khatib MRT - 4mins \* Yishun MRT - 6mins \* SLE - 7mins \* TPE - 7mins  
 CTE - 7mins \* Seletar Aerospace Park (SAP) - 6mins

Towering above the picture-perfect precinct as a landmark of the North, Skies elegantly combined 8 blocks of 13-storey condominiums, a row of sophisticated townhouses and 2 retail units in one prominent development. With an excellent mix of 1- to 4-bedroom apartments and penthouses in this 420-unit development, Skies is thoughtfully designed to fulfill every need.

## NOTES TO SPECIFICATIONS:

- A Marble/Compressed Marble/Limestone/Granite**  
Marble, compressed marble, limestone and granite are natural stone materials containing veins with tonality differences. There will be colour and marking caused by their complex mineral composition and incorporated impurities. While such material can be pre-selected before installation, this non-conformity in the marble, compressed marble, limestone or granite as well as non-conformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence some differences may be felt at the joints. Subject to clause 14.3, the tonality and pattern of the marble, limestone or granite selected and installed shall be subject to availability.
- B Timber Strips**  
Timber strips are natural materials containing veins and tonality differences. Thus it is not possible to achieve total consistency of colour and grain in its selection and installation. Timber strips are also subject to thermal expansion and contraction beyond the control of builder and vendor. Natural timber that is used outdoors will become bleached due to sunlight and rain. Thus, the cycle of maintenance on staining will need to be increased as requested. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.
- C Air-conditioning system**  
To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his/ her own contractor to service the air-conditioning system regularly.
- D Television and/ or Internet Access**  
The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/ or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.
- E Materials, Fittings, Equipment, Finishes, Installations and Appliances**  
Subject to clause 14.3, the brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to Architect's selection and market availability.
- F Layout/Location of Wardrobes, Cabinets, Fan Coil Units, Electrical Points, Television Points, Telecommunication Points, Audio Intercom System, Door Swing Positions and Plaster Ceiling Boards**  
Layout/Location of wardrobes, kitchen cabinets, fan coil units, electrical points, television points, telecommunication points, audio intercom system, door swing positions and plaster ceiling boards are subject to Architect's final decision and design.

## G Warranties

Where warranties are given by manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor of the Unit, the Vendor shall assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser. Notwithstanding this assignment, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.

## H False Ceiling

The false ceiling space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to conceal M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works will be required. Location of false ceiling is subject to the Architect's sole discretion and final design.

## I Glass

Glass is manufactured material that is not 100% pure. Invisible nickel sulphide impurities may cause spontaneous glass breakage, which may occur in all glass by all manufacturers. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligation under clause 9 and clause 17.

## J Mechanical Ventilation System

Mechanical Ventilation fans and ductings are provided to toilets which are not naturally ventilated. To ensure good working condition of the mechanical ventilation system, the mechanical ventilation system for the exhaust system within internal toilets (where applicable) is to be maintained by the Purchaser on a regular basis.

## K Planters

Planters are designed to take the loading of potted plants only. No soil material or turf/plants will be provided in the planters.

## L Wall

All wall finishes shall be terminated at false ceiling level. There will be no tiles/ stone works behind kitchen cabinets/ long bath/ vanity cabinet/ mirror.
