## Triple happiness under one roof

[ 三喜临门 ]

1 home for unconditional companionship.  
1 personal space for quiet solitude.  
1 great value to last generations.

1 choice  
to last a lifetime

[一心一意]

2 lifestyles in  
joyous union

[二人同心]

3 generations (3G)  
of shared heritage

[ 三代同堂 ]

Countdown to generations of love and togetherness, built upon a strong foundation of care and communication. Trilive comprises 3 blocks of 13/14/18-storey designed to bring quality of life for every member of the multi-generation household. Totalling 222 units, the freehold development consists of a wide array of 1 + Study and 2 bedrooms, as well as 2, 3 and 4 bedrooms dual-key units perfect for 3G families. Towering over low-rise landed properties in the surrounding, most of the high-floor units are granted unblocked views of the magnificent skyline.

The dual-key units encompass a Luxurious Suite with its own pantry and bathroom. Every suite comes with a range of functional home fittings specially designed for the older generation to enjoy life with absolute peace of mind. Such fittings include wider spaces for ease of movement, non-slip provisions and bigger switches. It also comes with the option to install grab bars and emergency call bell alarm system for additional security.

Akin to a standalone unit, the spacious suite offers comfortable spaces for aged parents and grown-up children to co-exist harmoniously without intruding on each other's personal space. Embrace the idyllic sense of reassurance that comes from knowing that your loved ones are home safe.

# Key to golden yields

The ingenious dual-key units give you the privilege of owning two luxurious homes at one time. Resembling two units connected by a common foyer, dual-key apartments allow peaceful 3G living without compromising on privacy. Whether for parents, grown-up children or extended relatives, your connected unit offers endless bonding opportunities with those who matters to you most.

**Type D1**  
4-bedroom dual-key unit

For astute investors, this is the key to optimising your investment returns. Select your preferred abode and rent out the other without infringing on your personal spaces. The dual-key apartment also allows you to rent out both abodes as individual units to double your returns.

## Note:

### Marble/Compressed Marble/Granite

Marble/compressed marble/granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/compressed marble/granite as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence, some differences may be felt at the joints.

### Timber Strips

Timber strips are natural materials containing veins and tonal differences. Thus, it is not possible to achieve total consistency of colour and grain in their selection and installation. Timber strips are also subject to thermal expansion and contraction beyond the control of builder and vendor. Natural timber that is used outdoors will become bleached due to sunlight and rain. Thus, the cycle of maintenance on staining will need to be increased as required.

### Air-conditioning System

To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his/her own contractor to service the air-conditioning system regularly.

### Television and/or Internet Access

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/or internet service providers or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.

### Materials, Fittings, Equipment, Finishes, Installations and Appliances

The brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to Architect's selection and market availability.

### Layout/Location of Wardrobes, Cabinets, Fan Coil Units, Electrical Points, Television Points, Telecommunication Points, Audio Intercom System, Door Swing Positions and Plaster Ceiling Boards

Layout/Location of wardrobes, kitchen cabinets, fan coil units, electrical points, television points, telecommunication points, audio intercom system, door swing positions and plaster ceiling boards are subject to Architect's final decision and design.

### Warranties

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor will assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser.

### Web Portal of the Housing Project

The Purchaser will have to pay annual fee, subscription fee or any such fee to the service provider of the Web Portal of the Housing Project as may be appointed by the Vendor or the Management Corporation when it is formed.

### False Ceiling

The false ceiling space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to concealed M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works will be required. Location of false ceiling is subject to the Architect's sole discretion and final design.

### Glass

Glass is manufactured material that is not 100% pure. Invisible nickel sulphide impurities may cause spontaneous glass breakage, which may occur in all glass by all manufacturers. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event.

### Mechanical Ventilation Fans

Mechanical ventilation fans and ductings are provided to toilets which are not naturally ventilated. To ensure good working condition of the mechanical ventilation system, the mechanical ventilation system for the exhaust system within internal toilets (where applicable) is to be maintained by the Purchaser on a regular basis.

### Wall

All wall finishes shall be terminated at false ceiling level. There will be no tiles/stone works behind kitchen cabinets/vanity cabinet/mirror.

### Door Panels, Kitchen Cabinet and Wardrobes

Number of door panels, kitchen cabinet and wardrobes are subject to the Architect's final design and decision.

### Glass Panels

Number of glass panels for windows, doors, etc is subject to Architect's final design and decision.
